

Medical Evaluation Division Awaiting Information (AI) Reasons

November 2013

AI Reasons from Medical Evaluations

Amplifying Information from Physician is a general category which is hard to break down further due to the specifics being asked of each mariner's physician.

Generally, to avoid having the evaluation team ask for more information:

1. Be sure to have your treating physician refer to [NVIC 04-08](#) regarding specific conditions to ensure that all requested information on those conditions is provided to the NMC.
2. Be sure to include all test results and other documentation supporting your capacity to meet the physical ability guidelines in Enclosure (2) of [NVIC 04-08](#).
3. Be sure that all tests and documentation are within the timeframes outlined in [NVIC 04-08](#).

This website contains information about avoiding AI when an application is submitted. Look for links, frequently asked questions, and tips on each webpage.
